### **EXAMINER'S AMENDMENT**

1. Applicant's election with traverse of 3/7/06 is acknowledged. The traversal is on the ground(s) that there was no Restriction in the PCT & that there is no undue burden. This is not found persuasive because:

- PCT unity does not preclude(s) a basis for Restriction in U.S. practice.
- What constitutes an undue burden may be open to argument, but that there is an additional burden is clear. Each additional claim(s) to treat is an additional burden.

The requirement is still deemed proper and is therefore made FINAL.

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Benton Duffet on 5/9/06.

3. The application has been amended as follows:

Claim(s) 1, line(s) 2, after "tower", --defining a center-- has been inserted;  
line(s) 3, "for loading the chips" has been deleted;  
line(s) 3, after "composer", --for loading the chips-- has been inserted;  
line(s) 7, "tube-like" has been replaced by --tubular--;  
line(s) 8, "ex-centric" has been replaced by --eccentric--;  
line(s) 10, the second "the" has been replaced by --a--;

Art Unit: 3651

line(s) 11, the second "the" has been replaced by --a--;

Claim(s) 5 has been cancelled.

4. The following changes to the drawings have been approved by the examiner and agreed upon by applicant: Figure(s) 1 is to be labeled as prior art. In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.
